Dear resident

### **Burwood Highway pedestrian and cycle overpass**

I am writing to provide an update on progress on the Burwood Highway pedestrian and cycle overpass currently being constructed near the EastLink interchange.

As you may be aware, the State Government funded the overpass to improve safety and convenience for cyclists and pedestrians using the existing pathway by eliminating the need to cross Burwood Highway through the signalised intersection.

The construction works are scheduled to continue until early 2009. Remaining activities include

- Erection of the steel girder bridge across Burwood Highway (this is currently being fabricated off-site),
- Completion of the concrete ramps, and
- Landscaping and planting.

SEITA will endeavour to keep residents, businesses and motorists informed as these construction activities progress. We are taking efforts to minimise disruption to motorists and surrounding residents and businesses wherever possible.

If you have any further questions or concerns regarding the overpass construction, please do not hesitate to contact Jenny Carbery, SEITA's Senior Project Engineer or Liz Iser, SEITA's Communications Adviser on (03) 8562 6800.

Yours sincerely

**Ken Mathers**  
Chief Executive Officer - SEITA
