

RIDE FOR JODIE

Cycling Safety Ride – Sunday August 15th

At about 6.30 am on the 19th of March, Jodie Ridges was following her passion for health and fitness on a solo training ride, when she was involved in a serious collision with a vehicle. Jodie suffered severe injuries and remains in hospital. As Scott Ridges and their four children come to terms with the challenges that lie before their family, the local community has come together to conduct a community bike ride.

It's Scott's wish that the cycling safety message be clearly communicated to all road users and all levels of government. Join the Ride for Jodie on the 15th of August to help deliver this message in a very visual way, and support the Ridges family.
