

RIDE2WORK TOP TEN TIPS

Our ten tips to get your workmates riding more often.

1. Organise a workplace breakfast to celebrate Ride2Work Day on Wednesday, 12 October 2016.
2. Create a bike-friendly info pack and/or intranet page that includes all workplace riding information.
3. Offer cycling skills training or basic bike maintenance workshops in your workplace.
4. Create a Bicycle User Group (BUG) at your workplace. Start a Facebook page for it to share riding tips and events.
5. Create a partnership with your local bike shop - arrange discounts for staff, organise for a bike mechanic to do regular workplace bike tune ups and team up with them for your Ride2Work Day breakfast.
6. Start a campaign to improve end-of-trip facilities at your workplace. Contact Bicycle Network for more information.
7. Encourage people to log their rides using Bicycle Network's Rider Log app (www.riderlog.com.au) and offer rewards and incentives to people who ride to work.
8. Develop a green travel policy for your organisation that incorporates bicycle travel at work. Consider including: staff bicycle fleet access, salary packaging and interest free loans for bikes.
9. During the month of October, encourage new riders to ride to work and have them donate the money they save to a chosen charity. If they donate to Bicycle Network, the money will go to building better bicycle infrastructure and make it easier for everyone to ride to work!
10. Contact Bicycle Network to find out how we can help make your workplace more bike-friendly. We can deliver workplace action plans that include a range of products and services to help get you started!
