## **RESPONSE:**

1. What is **your view** regarding the current active transport infrastructure in your electorate?

Active transport infrastructure is under-supported in Bayswater district, with few bikes lanes, and insufficient bike stands in public areas.

2. What **actions will you take** to improve active transport in your electorate?

Actively support more infrastructure for active transport by working with the Vic Government and Knox City Council to improve roads to be more bike friendly.

3. Active transport spending at the state level is **less than 2 per cent**. In your view, **what is a 'fair spend'** for active transport?

I don't know exactly what a 'fair spend' would be on active transport, and it likely depends on the district. I don't think I can answer this question, but I would see spending at least doubled.
